### Consider This...

During times of chaos in the workplace, it's sometimes easy to become frustrated and angry. The wise leader, however, will learn to keep his or her emotions in check, as suggested in Galatians 5:22-23. Grab your bible, read and reflect on this verse. Then ask yourself, do I keep myself under control in times of chaos?

How can I better manage my emotions in times of stress? Write at least two ways to better handle stressful situations.

LEAD

JESUS

Last issue, we introduced a new think piece called "Lead Like Jesus." It's a little break from the rest of the magazine to help us keep our hearts and minds focused on what we're really here for—to be mirror images of Christ. The graphic has symbolic meaning, too. The gold ring is representative of God, the Alpha and Omega; the triangle is for the Trinity with the colors representing royalty (purple), redemption (red) and righteousness (white).
