

The Heart of WorkLife™ Ministry

The WorkLife™ CoreMatrix is a proven framework for growing effective WorkLife™ ministry.

The WorkLife™ CoreMatrix is a simple yet highly effective structure to strengthen and give form to your WorkLife™ efforts. At its heart are six CoreElements that seamlessly weave practical WorkLife solutions into the ministry of your church. These CoreElements translate the heart of God for peoples work lives into intentional and measurable

action for your church. How these CoreElements are sequenced and the pattern they form may look different in every church, but the goal is the same: a balanced approach to growing people's WorkLife™ influence, implemented according to your church's natural timetable.

"The people who go out into the workplace ARE the church. We need to ask God, "How do I organize my church to help equip members to function where God has put them in the workplace?"
